

# Whiting ColdSaver

## Insulated Roll-Up Door

World Class Quality  
Made in the USA.

### The Whiting Quality roll-up for temps below 20°F/-7°C

Designed especially for use on trucks and trailers carrying goods at extremely low temperatures. There are no fasteners or aluminum connectors through the door to conduct heat or cold therefore making it practically maintenance free and the toughest insulated roll-up you can buy.

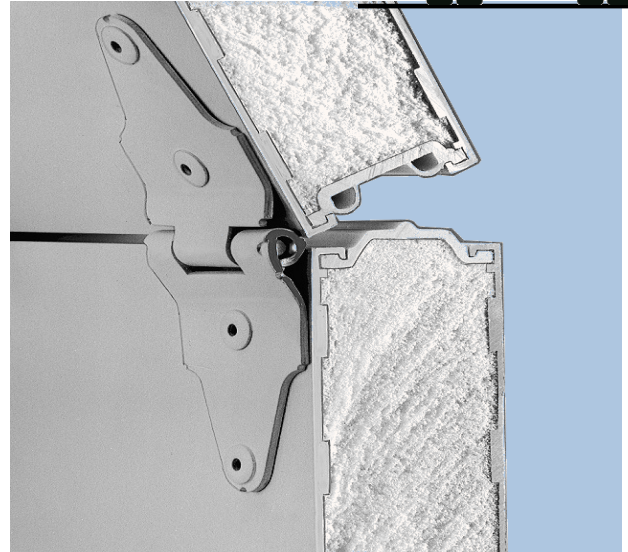

The Whiting ColdSaver is a solid 37% more efficient in retaining cold than any other roll-up which results in both savings and peace of mind when it comes to shipping your freight.

Stainless Steel-Clad option includes all ColdSaver Door features plus Stainless Steel-faced panels along with optional stainless steel hardware inside and out.

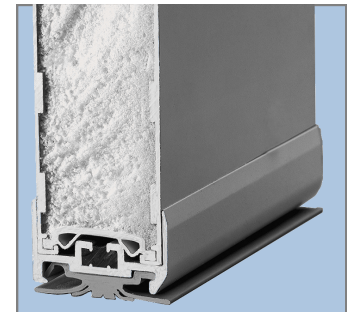

### Product Features

- Durable panel system designed to withstand rugged use and operate at extremely low temperatures**
- Heavy duty .070" extruded aluminum panel faces**
- All panels designed with thermal breaks to eliminate heat transfer and adds structural strength**
