It's easy to order SEA-LOK® by Whiting.

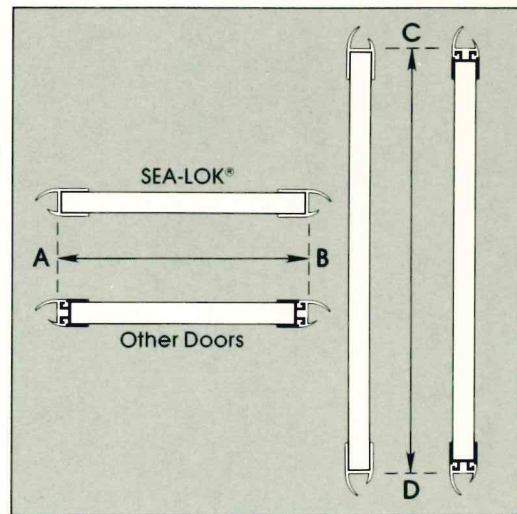

**Tell us** the opening WIDTH of your truck or trailer. \_\_\_\_\_ inches (distance between roadside post and curbside post)

**And** the opening HEIGHT. \_\_\_\_\_ inches (distance between header and sill as shown)

**Or** place your tape measure over your present door and measure the distance from A to B. \_\_\_\_\_ inches (this is the overedging WIDTH of your present door)

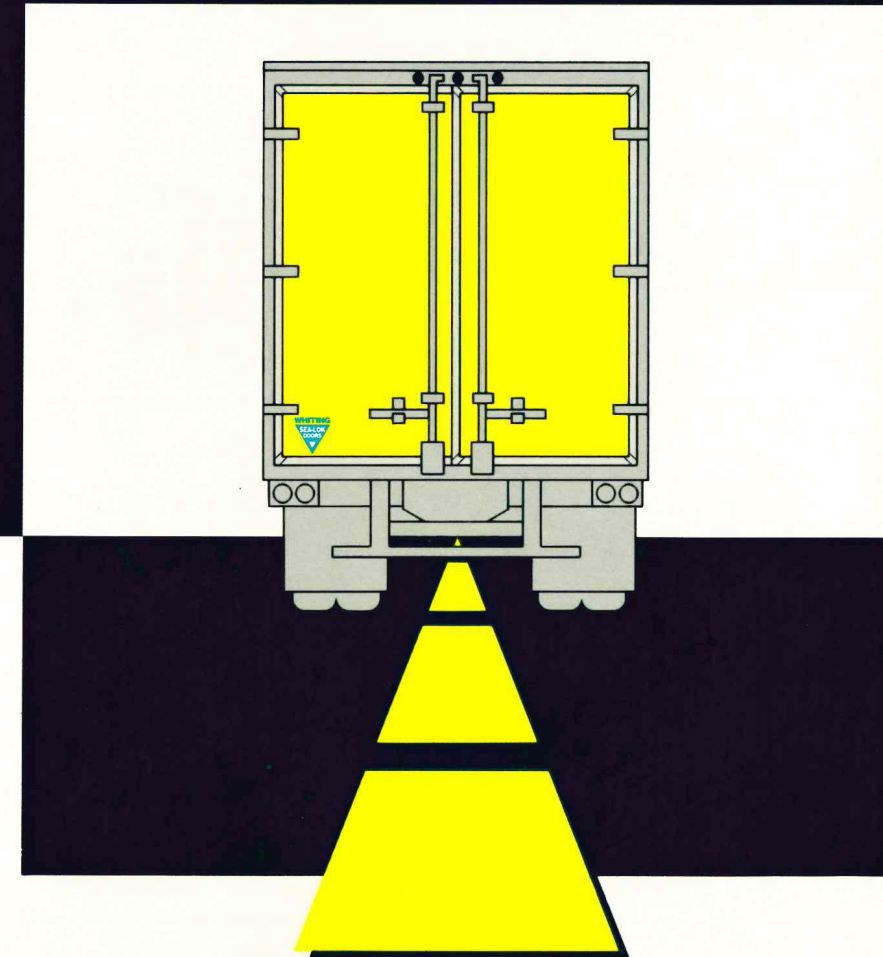

**And** next measure the distance from C to D. \_\_\_\_\_ inches (this is the overedging HEIGHT)

**Be sure to specify** seal type and facing materials, including: gauge, color and special alloy, if any.

**For special applications our engineering department will design a door to meet your specific requirements.**

# SEA-LOK® DOORS

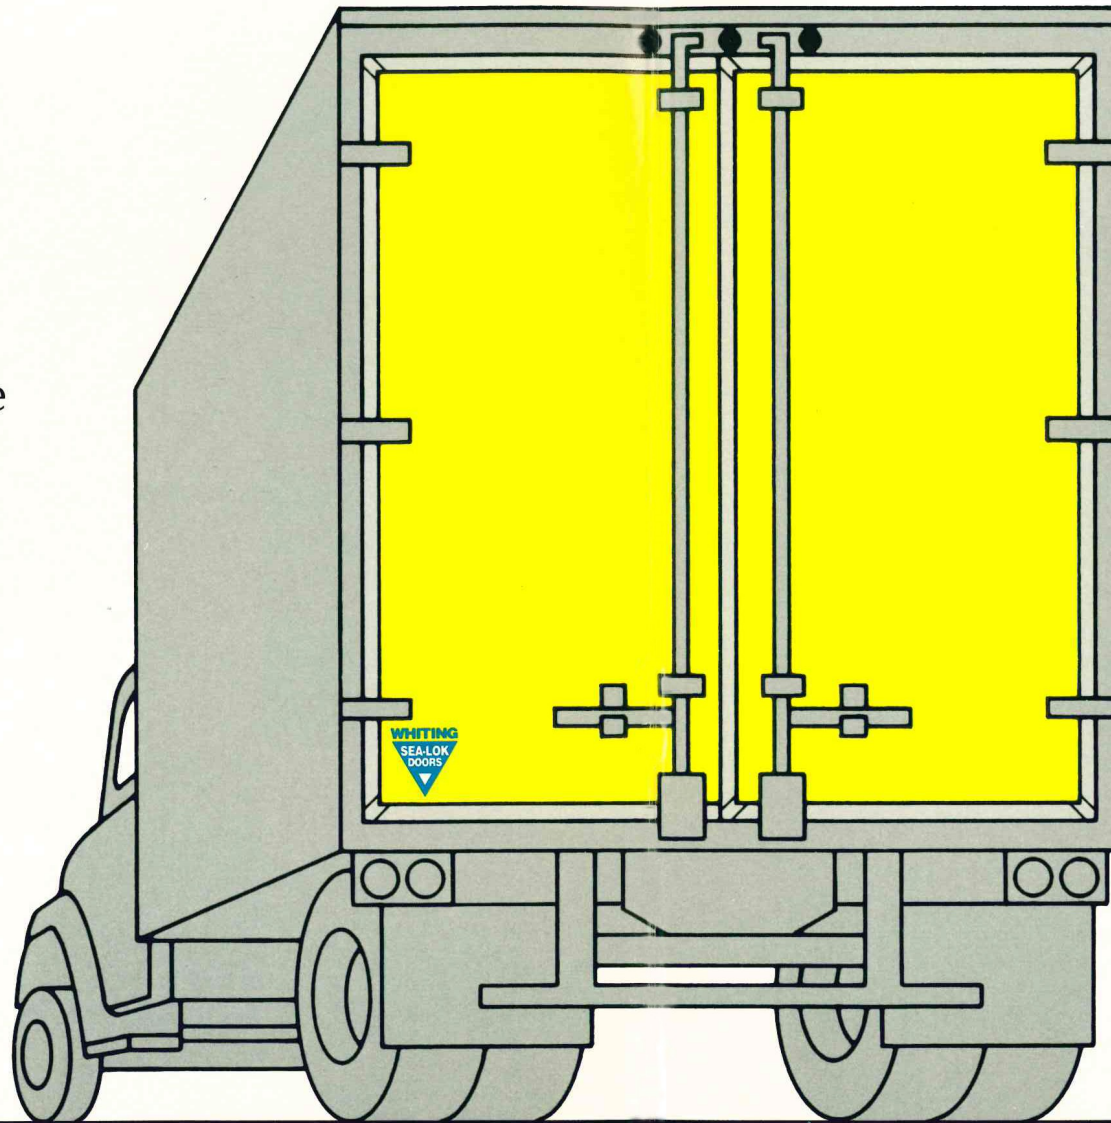

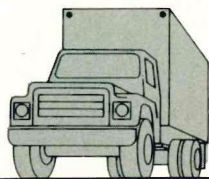

The swing doors manufactured by

# WHITING

the quality name in doors for the transportation industry

**When you order trailers,  
specify SEA-LOK® swing doors  
by WHITING the world's leading  
manufacturer of quality doors  
for the transportation industry.**

When you specify at the outset,  
you save all the aggravation and maintenance  
costs that plague doors of lesser quality.  
It's easy to identify quality  
in a swing door.  
Just look for the name...WHITING.

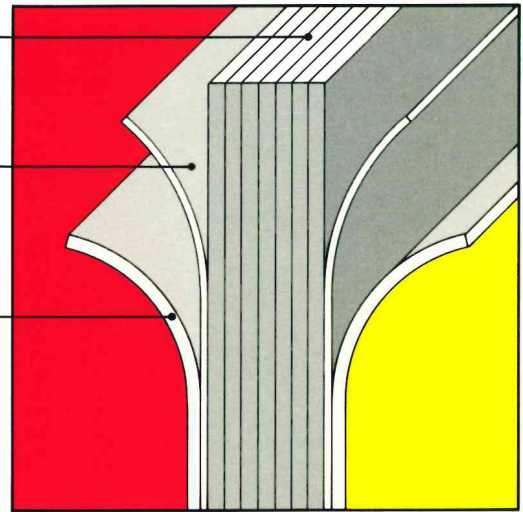

Exterior grade Douglas  
Fir plywood standard,  
oriented strand board,  
honey-comb and other  
cores available to suit  
your application.

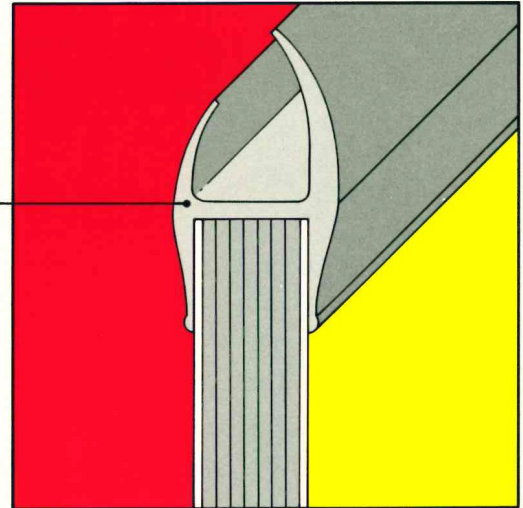

Patented Urethane type  
adhesive provides  
superior bond and  
meets all transportation  
specifications.

Wide range of faces  
include:

- Galavan® steel
- Prepainted or mill finish  
aluminum, 3003-H14  
3105-H14  
5052-H34
- Stainless steel, 304-2B
- Hot dipped Galvanized  
steel

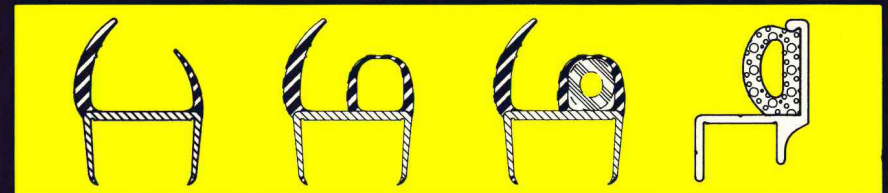

Patented Sea-Lok®  
Seal recognized as the  
single best door seal  
in preventing rot and  
corrosion damage.

US Patent No. 3,518,792

Whiting swing doors are available with these seals.
