

# Whiting TempGuard

## Insulated Roll-Up Door

World Class Quality  
Made in the USA.

### The Whiting Quality roll-up for temps above 20°F/-7°C

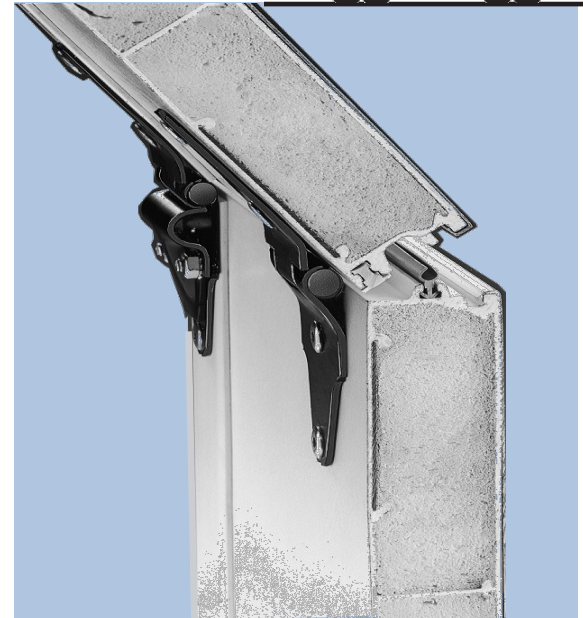

This is the finest door designed for use on trucks and trailers carrying foods at medium temperatures (20°F/-7°C and above). Built to Whiting's exact quality specifications, our ultra smooth aluminum facing exterior will readily accept high quality paint, decals and is easy for cleaning.

No other roll-up door delivers such consistent temperature control in this range.

Stainless Steel-Clad option includes all TempGuard Door features plus Stainless Steel-faced panels. Optional stainless steel hardware packages inside and out also available.

### Product Features

- 1.5" urethane foam filled fiberglass panels with prepainted aluminum faces
- Door surface readily accepts decals
- No thru-rivets allows for easy decaling and is not a source of heat transfer
- Double sealed panel joints
- Entire door perimeter is double sealed
- Heavy duty 5600 bottom roller brackets
- All hardware reinforced with steel backing plates
- Two spring independent suspension balancer
- 2" track and roller system
- End hinges with easy roller change feature
- Rigid bottom channel with replaceable seal
- All door hardware E-Coated to prevent rust and corrosion
- Self adjusting cam lock and other lock options available

Heavy duty aluminum channel and flexible seal features a rigid landing surface to protect seal.

All panels are equipped with PVC end caps.

Removable bottom roller bracket designed for easy roller replacement.
